Field of Competence

Construction, Engineering, Infrastructure

Key Relevant Experience:

Mr. Bwalya Lumbwe is a Zambian Civil Engineer with over 37 years of experience covering all aspects of building, civil and mechanical construction of which 15 years were in executive management positions.

Mr. Lumbwe has held the positions of General Manager in Zambia, Area Manager, and Contracts Manager in addition to various middle management positions in earlier years in the Wade Adams Group. Wade Adams had operations in 9 African Countries and the Middle East. He was also Construction Manager with Wade Adams Construction Limited in Dar-es-Salaam, Tanzania where he managed some of the group's largest contracts which included major design and build projects where he oversaw a multi-disciplinary team of professionals and contractors and as the Project Manager. These projects included the complete refurbishment of 710 rooms and services in seven hotels, the complete refurbishment of three breweries and the construction of one new one and 90 Km road project. In all the above he was responsible for contractual as well as financial performance of contracts.

He has worked on major road projects notably the Kapiri- Serenje, Serenje-Mpika roads in Zambia and major arterial roads in Mozambique, Tanzania and building works in Burundi.

Other experience includes major construction of processing plants for mines in Zambia and Congo and other private developers.

He has many years' experience covering all construction and project design: building, civil- roads, bridges, canals, earth dams and earthworks, mechanical, electrical, water and sewage works, instrumentation, and plant having worked on several different projects over the years.

He is familiar many forms of contract and procurement procedures as follows:

1. FIDIC- Conditions of Contract for Plant, Design and Build/Yellow Book
2. FIDIC Conditions of Contract for Construction/Red Book
3. FIDIC Conditions of Contract for Construction/Multilateral Development Banks Harmonised Editions-Pink Book
4. FIDIC Conditions of Contract for Engineering, Procurement and Construction (EPC)/Turney Key Projects/Silver Book
5. FIDIC Short Form of Contract for Construction/Green Book
6. FIDIC Model Services Agreement (Client/Consultant), Sub- consultancy Agreement, Model Joint Venture Agreement between Consultants
7. World Bank Forms of Contract
8. New Engineering Contract -NEC3 and 4-UK
9. Joint Contract Tribunal, JCT-UK DB and Standard Building Forms- 2011; and
10. Local forms used in Zambia and Tanzania

He is a member of the Technical Committee of the Zambia Public Procurement Authority Board on behalf of the Engineering Institution of Zambia and has developed expertise in public procurement processes and their standard conditions of contract including the FIDIC Multilateral Development Banks Harmonised version and the World Banks standard versions as adopted in Zambia.

He is a Certified Construction Auditor with the National Association of Construction Auditors in the USA one of two bodies that has such registration.

He is past Chairman of the National Council of Construction during which time the body changed from an association to a statutory body and served on the board prior to that.

Mr. Lumbwe is now a Managing Consultant for a firm that performs construction technical auditing and construction claim management services. The firm also provides a service in the preparation of statements of claim and defence in arbitral/ adjudication cases and assessment of damages.

He is also an Arbitrator, Adjudicator and Expert Witness and Dispute Board practitioner in construction cases and other aspects of dispute resolution.

He has made conference presentations and written on alternative dispute resolution and dispute boards and on expert witnesses.
